

Internet Resources Digest

July 2012

American International Health Alliance

Learning Resources Project

www.aiha.com

The Internet Resources Digest (previously – Health Resources Digest) is distributed free of charge as a service of the American International Health Alliance (AIHA). If this document is to be re-distributed or posted on another Web site, we request that it be posted in full/without alteration, and credit is given to the AIHA as the source of the document.

Evidence-based Nursing

Training Resources

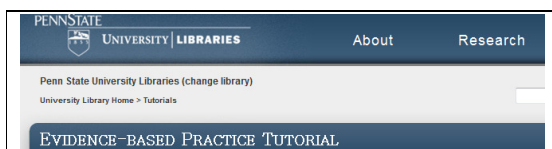

Syllabi for practising EBM. Evidence-based Nursing

The goal of this website is to help develop, disseminate, and evaluate resources that can be used to practice and teach EBM for undergraduate, postgraduate and continuing education for health care professionals from a variety of clinical disciplines, including nursing.

<http://ktclearinghouse.ca/cebm/syllabi/nursing>

Evidence Based Practice Tutorial for Nurses

From Penn State University Library. The basic aim of this tutorial is to walk you through the EBP steps in an effort to make the process easier and more understandable for you

<http://www.libraries.psu.edu/psul/tutorials/ebpt.html>

Evidence Based Public Health Nursing Tutorial

The tutorial is made up of six training modules that were developed by librarians in order to enhance the search skills of public health nurses as they search for evidence based public health nursing. Complete the Assessments after each module to test your knowledge. From the University of Illinois Library of the Health Sciences.

<http://www.uic.edu/depts/lib/projects/ebphn/modulesmain.html>

Academic Center for Evidence-Based Practice

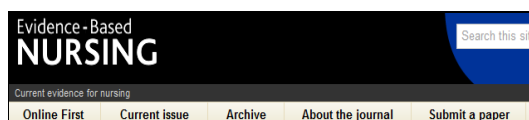

The Academic Center for Evidence-Based Practice (ACE) was established as a Center of Excellence for The University of Texas Health Science Center at San Antonio in January 2000. The purpose of ACE is to advance cutting-edge, state-of-the-art evidence-based nursing practice, research, and education within an interdisciplinary context. The goal is to turn research into action, improving health care and outcomes through evidence-based practice (EBP), research, and education. On

the web-site you can find EBP training modules, links to web-based resources, and presentations.

Journals, Blogs, Articles

Evidence-Based Nursing

“Published quarterly, the purpose of *Evidence-Based Nursing* is to select from the health related literature research studies and reviews that report important advances relevant to best nursing practice. The clinical relevance and rigour of the studies is assessed to identify research that is relevant to nursing. A commentary on chosen articles identifies the key findings and implications for clinical practice.” Free access to selected full-text articles and to all issues published in 1998-2005. Access to full-text through HINARI.

Worldviews on Evidence-Based Nursing

A quarterly, peer-reviewed journal and information resource from The Honor Society of Nursing, Sigma Theta Tau International. A primary source of information for using evidence-based nursing practice to improve patient care by featuring: Knowledge synthesis articles with best practice applications and recommendations for clinical practice, nursing administration, nursing education and public health care policy; Original articles and features that present research, which challenge and develop the knowledge base about evidence-based nursing; Special features and columns with information geared to readers' diverse roles: clinical practice, education, research, administration and policy; Commentaries about current evidence-based nursing issues and developments; A forum that encourages

readers to engage in an ongoing dialogue on critical issues and questions in evidence-based nursing; Reviews of the latest publications and resources on evidence-based nursing; News about professional organizations, conferences and other activities around the world related to evidence-based nursing; Links to other global evidence-based nursing resources and organizations. Free abstracts and a sample issue.

International Journal of Nursing Practice

The *International Journal of Nursing Practice* is a fully refereed journal publishing original scholarly work that advances the international understanding and development of nursing both as a profession and academic discipline. The Journal focuses on research and professional discussion papers with a sound scientific, theoretical or philosophical base. The **Cochrane Nursing Care (CNC) Journal Section** – is a new supplement published in this journal since 2010.

[EBN Organizations](#)

Cochrane Nursing Care Field

The Cochrane Collaboration is an international non-profit and independent organization, dedicated to making up-to-date, accurate information about the effects of healthcare readily available worldwide. It produces and disseminates systematic reviews of healthcare interventions and promotes the search for evidence in the form of clinical trials and other studies of interventions. The Cochrane Nursing Care Field is one of 11 Fields within the Cochrane Collaboration. The purpose of a Field is to support the conduct, dissemination and utilization of the systematic reviews relevant to the field.

Joanna Briggs Institute

„The Joanna Briggs Institute (JBI) is an international not-for-profit, membership based, research and development organisation based within the Faculty of Health Sciences at the University of Adelaide, South Australia. The Institute collaborates internationally with over 70 entities across the world. The Institute and its collaborating entities promote and support the synthesis, transfer and utilisation of evidence through identifying feasible, appropriate, meaningful and effective healthcare practices to assist in the improvement of healthcare outcomes globally.,

Some resources are available for free – for example, Best Practice information sheets (or guidelines) - produced specifically for practising health professionals and based on the best available research evidence as reported in systematic reviews.
